Course categories

As the professional landscape becomes more complex, CPAs must learn new ways to provide great client service. Below is a list of topical areas now available with CPEExpress® online learning.

Accounting and financial reporting

Courses in this category explore technical accounting and financial reporting standards, including those issued by the FASB, SEC and IASB. Popular topics include the new revenue recognition, lease and financial instrument standards, as well as, internal controls and fair value accounting.

- **Most popular course:** [U.S. GAAP: Review for Business & Industry](#)

Assurance services

Find courses covering risk assessment, internal controls, sampling, workpaper documentation, quality control and PCAOB rules, among others. Looking for the latest changes from SSARS 21, look no further!

- **Most popular course:** [Annual Accounting and Auditing Workshop](#)

Business, people and leadership

These courses focus on the more nuanced, non-technical aspects of management accounting to help develop the competencies needed beyond the purely financial skills of those in business, industry or governmental entities.

- **Most popular course:** [Financial Forecasting and Decision Making](#)

Business management and consulting

These courses target the critical skills needed for running any size enterprise. From operational insight to organizational impact, these resources develop the competencies that go beyond the debits and credits to mature the business perspective for members of the accounting team.

- **Most popular course:** [Analytics and Big Data for Accountants](#)

Employee benefit plans

Master the intricacies of auditing employee benefit plans in accordance with AICPA and EBSA standards and explore the accounting and auditing requirements unique to employee benefit plans. These courses address the requirements and audit procedures related to defined contribution, defined benefit and health and welfare plans to more effectively plan and execute your audits.

- **Most popular course:** [Audits of 401\(k\) Plans](#)

Ethics

The behavioral and regulatory ethics courses offered in this section explore the distinctive ethical code of the profession based on the fundamental principles of integrity, objectivity, independence, due care and serving the public interest.

- **Most popular course:** [Real-World Business Ethics](#)

Financial management

These courses are designed to hone financial management best practices for CFOs and Controllers. Topics include data analytics, management skills and working with senior leaders and business owners.

- **Most popular course:** [Toolkit of Best Practices for Today's Controller and Financial Manager](#)

Fraud and forensics

Learn how to use forensic techniques to detect fraudulent activity as well as identify means of fraud prevention, detection and response within an organization.

- **Most popular course:** [Common Frauds and Internal Controls for Revenue, Purchasing and Cash Receipts](#)

Not-For-Profit

Dedicated to the unique compliance and reporting requirements of not-for-profit entities, these courses include the latest annual updates, changes in tax law and real-world practical applications. Several courses qualify for Yellow Book CPE credit.

- **Most popular course:** [Top Governmental & Not-for-Profit Accounting & Auditing Issues Facing CPAs](#)

Government

These courses are designed to enhance competency in HUD-assisted engagements, single audits under the Uniform Guidance and state and local governmental concepts. Most courses qualify for Yellow Book CPE credit.

- **Most popular course:** [Governmental and Not-for-Profit Frauds](#)

Taxation and financial planning

These courses provide the learning needed to elevate public tax practice, keep up with ever-changing tax laws and stay current on trending tax issues and hot topics. Courses cover tax compliance and planning for individuals and businesses, international taxation, multistate taxation, retirement planning and estate planning.

- **Most popular course:** [1040 Tax Return Workshop](#)

Valuation

Access courses covering the basics of the valuation process, its applicability to certain types of engagements and the various methods of valuation.

- **Most popular course:** [Introduction to Business Valuation](#)
